

BLUEOCEAN ELYTRA

Smart EV Charging Infrastructure
For Commercial & Residential Properties

Host smart EV charging at your property.
Elytra handles everything else.

The Opportunity

EV adoption is accelerating across India and globally. Drivers increasingly choose destinations that offer reliable charging, making EV infrastructure a competitive advantage for modern properties.

Properties that support EV Charging benefit from:

Benefit	Outcome
 Increased Footfall	EV drivers actively seek charging-enabled destinations
 Enhanced Property Value	EV infrastructure future-proofs your asset
 Improved Tenant Experience	Residents and employees gain convenient charging
 Sustainability Impact	Supports ESG and green mobility commitments
 Zero Operational Burden	Elytra handles deployment, operations, and ongoing support

How Elytra Works

Elytra deploys and operates smart EV charging infrastructure at your property managing everything from deployment to maintenance

Deployment

Site Feasibility Assessment

Evaluate site viability and electrical capacity.

Electrical Infrastructure Planning

Design optimal power distribution and connections.

Charger Installation & Commissioning

Install high quality EV chargers and integrate with grid.

Grid Integration & Safety Compliance

Ensure grid stability and adhere to safety standards.

Operations & Maintenance

24/7 Charger Monitoring

Track and manage charger performance in real time.

Remote Diagnostics & Troubleshooting

Quickly identify and fix issues through remote support.

Preventive Maintenance

Perform regular checks and upkeep to maximize uptime.

SLA-Backed Uptime (98%+)

Guarantee high availability and prompt support.

The Elytra Platform

Our cloud-native Charging Station Management System (CSMS) is OCPP 1.6 / 2.0.1 compliant and provides:

Charger Types:

AC Charger
7 kW – 22 kW

DC Fast Charger
30 kW – 150 kW

Ideal Locations

Elytra partners with a wide range of property types:

✓ Commercial Office Parks	✓ Shopping Malls & Retail Centers
✓ Hotels & Hospitality	✓ Hospitals & Healthcare Campuses
✓ Residential Communities & Apartments	✓ Industrial Parks & Parking Operators

EV charging transforms your property into a future-ready, high-value destination.

Fast and hassle-free setup

Plug and play set up to get you started on the go
